

Fact Sheet

HEALTH AND SAFETY MANAGEMENT IN HEALTH CARE LEVEL 3

Overview

Workplace accidents cost UK businesses billions each year through insurance, staff replacement, and legal fees. This e-learning course provides a comprehensive introduction to health and safety legislation, common workplace hazards, and how to apply effective control measures. By the end of the course, learners will be equipped with the knowledge and skills to confidently supervise staff and take the next step toward a recognised health and safety qualification.

Duration:
6 - 9 Hours

Assessment:
Multiple-Choice
Questions

Price:
£175.00

Certificate:
Yes – Highfield
Completion Certificate

Areas covered

- Introduction to health and safety
- Accidents, injuries and work-related health
- Legal aspects of health and safety
- Risk assessment (5x5 matrix)
- Hazardous substances (CoSHH)
- The workplace
- Using equipment safely
- Fire safety
- Ergonomics, manual handling and display screen equipment
- Measuring and monitoring performance
- The role of line managers and supervisors

Who is it aimed at?

This course is designed for supervisors or managers in healthcare with health and safety responsibilities, as well as individuals aiming to achieve a Level 3 health and safety qualification. It can also support the on-programme learning component of the new apprenticeship standards, helping apprentices build the knowledge, skills, and behaviours needed to succeed in the workplace.
