

# Fact Sheet

## ANAPHYLAXIS & AUTOINJECTORS

### Overview

Anaphylaxis is a severe and potentially life-threatening allergic reaction that requires immediate response. This short course provides essential knowledge on recognising the signs of anaphylaxis, understanding the associated risks, and administering emergency treatment using an autoinjector. It is designed to help learners respond quickly and effectively in critical situations.

**Duration:**  
30 Minutes

**Assessment:**  
Multiple-Choice  
Questions

**Price:**  
£5.00

**Certificate:**  
Yes – Highfield  
Completion Certificate

### Areas covered

- Reactions to allergens
- Anaphylaxis
- An employee's responsibility
- Adrenaline autoinjectors
- Common traits

### Who is it aimed at?

This course is suitable for any employee or manager working in environments where knowledge of anaphylaxis and the use of autoinjectors is important. It can be taken as a standalone module or incorporated into a staff induction programme.
